

Walleye Wall

Celebrating Our 25th Anniversary

2 YEARS IN A ROW guests of Budd's Gunisao Lake Lodge have caught 50% of the Master Angler Walleyes in Manitoba!

The biggest walleye caught on Gunisao Lake this year was by Dr. Ted Morter, Jr. at 32 inches! This is not the first time Dr. Morter has caught the biggest walleye at Gunisao Lake during a season. In 2006, Dr. Morter caught a 33 ¾ inch walleye that was not only the largest on Gunisao but also the largest in Manitoba.

609 total Master Anglers were landed by over 360 different anglers at Budd's in 2012

During the 2012 season, our guests caught a record breaking ammount of Master Anglers – **527 walleye, 52 northern pike, 10 tullibee, 8 perch, 8 whitefish, 5 suckers, and 2 burbot**. As a matter of fact, our guests have been catching so many Master Anglers that we decided to start our own club... **Announcing the First Annual**

Budd's Master Angler Club Awards

The Budd's Master Angler Club (BMAC) is our very own club designated to acknowledge all of the Trophy Fisherman on Gunisao Lake.

How To Qualify For The Club:

Land any one of Manitoba's various species of fish at Gunisao according to the same lengths of Manitoba's Master Angler Program. For example Master Angler Walleyes are 28 inches plus, and Master Angler Northern Pike are 41 inches plus. Each new season brings a new chance for you to join the BMAC!

BMAC Member Benefits:

(Starting in 2013)

- ★ Your name recognized on the BMAC and published in "The Walleye Wall".
- ★ A commemorative BMAC pin with the year of your accomplishment.
- ★ Entry in our St. Croix Rod and Reel combo giveaway.

Always Improving Your Budd's Experience

At Budd's Gunisao Lake Lodge, we are always striving to improve your fishing experience. In recent years we have built new decks, remodeled our kitchen, and overhauled our boats. No detail is too small to be improved upon.

Maintaining a safe and effective runway is a constant job. This past winter we brought in a 38 hp Kobota Tractor with bucket and backhoe, along with a 2400 pound wobble wheel packer. This equipment helps to make a hard and compact runway that is essential for a smooth takeoff and landing.

As with many parts of the country, spring came early to Manitoba this year. Originally, these 2 large pieces of machinery were intended to travel to Gunisao over a winterroad.

However, Mother Nature spoiled our plans with above average temperatures. A small window of opportunity presented itself when a helicopter company was flying out of Norway House. Our equipment was quickly transported there and disassembled into 4 loads, then carried with straps underneath the helicopter to Gunisao. 5 Trips and 2 days later the equipment arrived.

Everything in the North comes with unique challenges, but with a little ingenuity and a lot of hard work almost anything can be accomplished.
